Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The objection to the disclosure has been obviated by the amendment to the specification shown in Attachment B of the reply filed 16 June 2008.

The prior art rejection set forth in the previous Office action is withdrawn primarily in view of the amendment to claims 29, 40 and 51 requiring the external pipe comprising an inlet below the distribution plate. The closest prior art of EP '204 and WO '986 (applied in said rejection), taken individually or in combination, fail to teach or adequately suggest the applicants' currently claimed process, particularly the requirement that condensed liquid be fed above the fluidized bed through an external pipe connecting a bottom of the fluidized bed reactor to a position above an upper limit of the fluidized bed, the external pipe comprising an inlet *below* the distribution plate of the fluidized bed reactor. In WO '986, one or more external connecting pipe(s) is used in the disclosed process; however, the connecting pipe(s) is positioned *above* the distribution grid, connecting the bottom part of the reactor chamber with the top part thereof, and is used as a polymerization zone, to produce a different product than that produced in the main fluidized bed, rather than for transporting condensed liquid to a position above the fluidized bed. EP '204 lacks any teaching or suggestion to feed condensed liquid through an external pipe connecting a bottom of the fluidized bed reactor to a position above the upper limit of the fluidized bed.

Accordingly, claims 29-60 are deemed to define allowable subject matter and passed to issue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner F. M. Teskin whose telephone number is (571) 272-1116. The examiner can normally be reached on Monday through Thursday from 7:00 AM - 4:30 PM, and can also be reached on alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu, can be reached on (571) 272-1114. The appropriate fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.
